Company

Provizion Technologies was formed in May of 2009 and is the exclusive marketing and distribution company for the Philippines. The parent or mother company is a US based VOIP Technology Company with over 10 years of successful business experience.

Over the past 9 years the corporate team has developed its own unique internet based telecom solution. The key people involved in the Provizion technology were the first to spear head Mobile based VOIP calling through Wifi/3G/Edge and GPRS. The management team took VOIP from a simple IP to IP system to a robust full featured phone system. Going one step further, the team enhanced its telecom platform to include wifi mesh networks and providing its customers with a bundle of Voice, Video and Internet Services. Now the company exclusively finds partners for developing and deploying its own internet brand all over the world.

VISION

As the Philippines economy continues to lead Asia in financial growth, it becomes much more important to place emphasis on competitive marketing strategies.

Provizion focuses on helping take local Philippine businesses to the next level of their sales and growth trajectory using organic, proven marketing strategies.

It is this vision that drives our commitment to push the boundaries of our technology and to bring the best possible opportunity for our clients.

MISSION

Our goal is to build a business and an institution that will astound the world and give our customers, distributors, employees and shareholders great pride to be part of a company with the highest level of integrity, vision and purpose.
